

PHC presentation

THE KENYA PRIMARY HEALTH CARE (PHC) COALITION AT A GLANCE

Introduction to HENNET

The Health NGOs' Network (HENNET) was founded in 2005 by Health CSOs comprising both NGOs and FBO members and was registered in 2007 as an NGO by the NGOs Coordination Board with the goal of coordinating and networking the CSOs in the health sector.

HENNET has a membership which comprises both local and international Non-Governmental Organizations (NGOs), Faith-Based Organizations (FBOs), and Research Institutions working in all the 47 Counties in Kenya but all focused on health and health-related issues

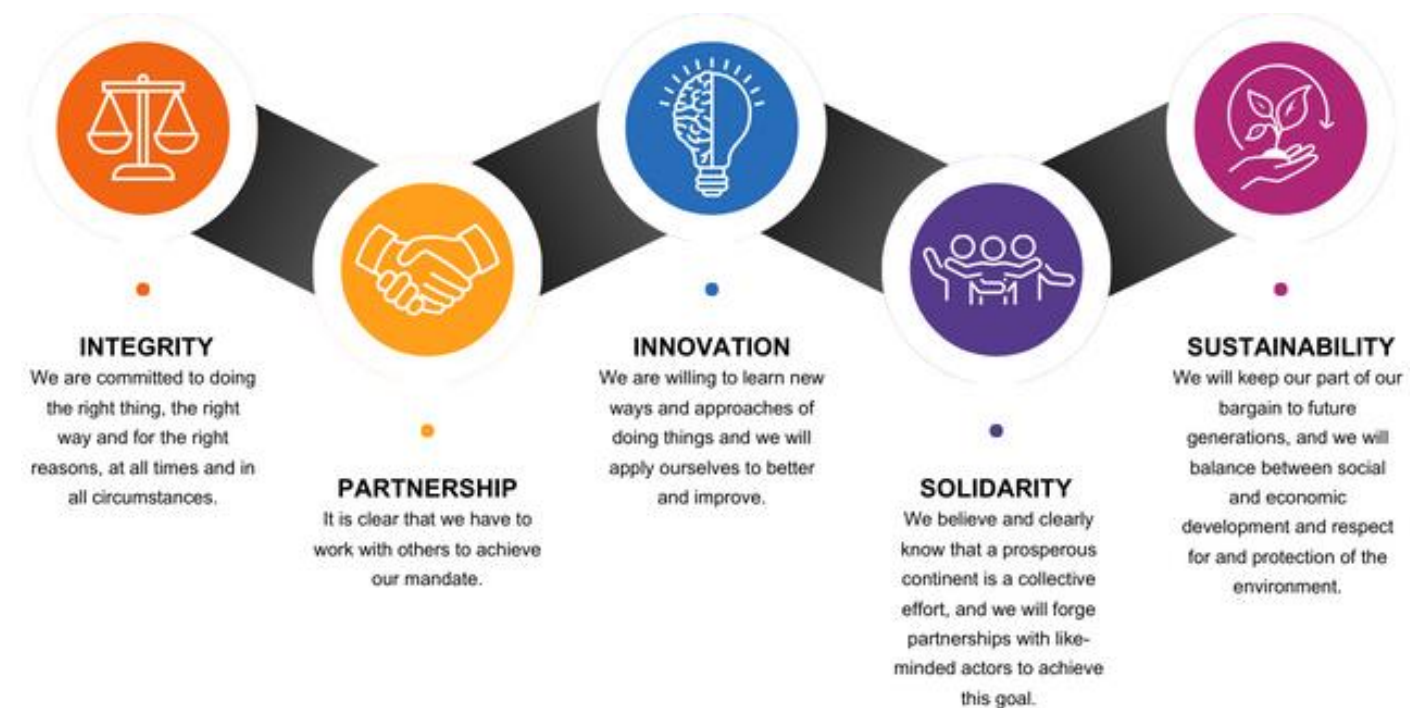

HENNET Intro. Cont.

Vision: “A Healthy and Empowered Kenyan Society”

Mission: “As a network we promote civil society's roles and engagements to transform Kenya's health sector“

Values:

Background on PHC

Primary health care (PHC) is “essential health care made accessible, acceptable and affordable through full participation of individuals, families and communities.

What are the Key Components of Primary Health Care in Kenya?

- 1) Health in All Policies (HIAP)/ Multi-sectoral Action
- 2) Empowering individuals, families & communities
- 3) Integrating health services

Why Primary Health Care?

- 1) More than [80%](#) of the common health needs that people have throughout their lifetimes are met.
- 2) Results in more individuals living longer, healthier lives and fewer children passing away before their fifth birthday.
- 3) Is effective at diagnosing, treating, and preventing illnesses in people before they become costly to treat.
- 4) Is just and equal, giving everyone access to necessary healthcare services in their local communities.
- 5) Helps communities identify and contain local infections before they spread globally, safeguarding the security of the global health system.

More than [80%](#) of the common health needs that people have throughout their lifetimes are met.

The Role of CSO in PHC delivery

The set-up of PHC systems in Kenya provides CSOs with a platform to provide oversight, insights, grass roots monitoring, social accountability as well as advocacy on MNCH, FP and the overall PHC space in Kenya

Galvanizing CSOs in PHC advocacy

The set-up of PHC systems in Kenya provides CSOs with a platform to provide oversight, insights, grass roots monitoring, social accountability as well as advocacy on MNCH, FP and the overall PHC space in Kenya.

Why a CSO coalition to advance PHC in Kenya?

- 1) In view of SDG 17, recognizes the need for strengthened means of implementation and revitalization of partnerships for sustainable development.
- 2) To build a stronger PHC advocacy sector among health CSOs through building of advocacy capacity of CSOs and promote the use of evidence for result-based advocacy.

- 3) To forge stronger partnerships among vertical health programs towards the achievement of UHC through PHC. Reduce the need for health CSOs to work in silos.
- 4) Resource and knowledge sharing towards implementation of programs geared towards the achievement of PHC4UHC.
- 5) Implement the Kenya CSOs Health Engagement Strategy/Framework

PHC Coalition Role

The objective of the PHC Coalition will be to promote meaningful engagement of civil society in the PHC advocacy both at county and national level.

Members of the Kenya PHC Coalition will be required to, among other things:

- Jointly develop and implement an annual PHC advocacy, accountability, and domestic Resource Mobilization for Health workplan
- Facilitate access to information on PHC to civil society organizations by the government and other players.
- Consult with broad civil society networks on matters related to PHC including MNCH and FP.
- Develop coordinated advocacy plans on PHC.
- Advocate for citizens' priorities and interest in PHC platforms at county and national level.
- Coordinate PHC related CSO efforts to ensure efficient use of limited CSO resources.
- Act as a resource group for CSOs and different duty bearers on PHC implementation in Kenya and community perspective, focus and priority.
- Act as a resource pool of experts to work on various PHC aspects including MNCH, and FP.
- Provide a platform for coordinated feedback to government, development partners and other stakeholders in a structured and coordinated manner.

Role of Hennet

HENNET will host the PHC Coalition and provide secretariat services. The membership will appoint a working committee which will be rotational on an annual basis.

Membership

The coordinating group will include:

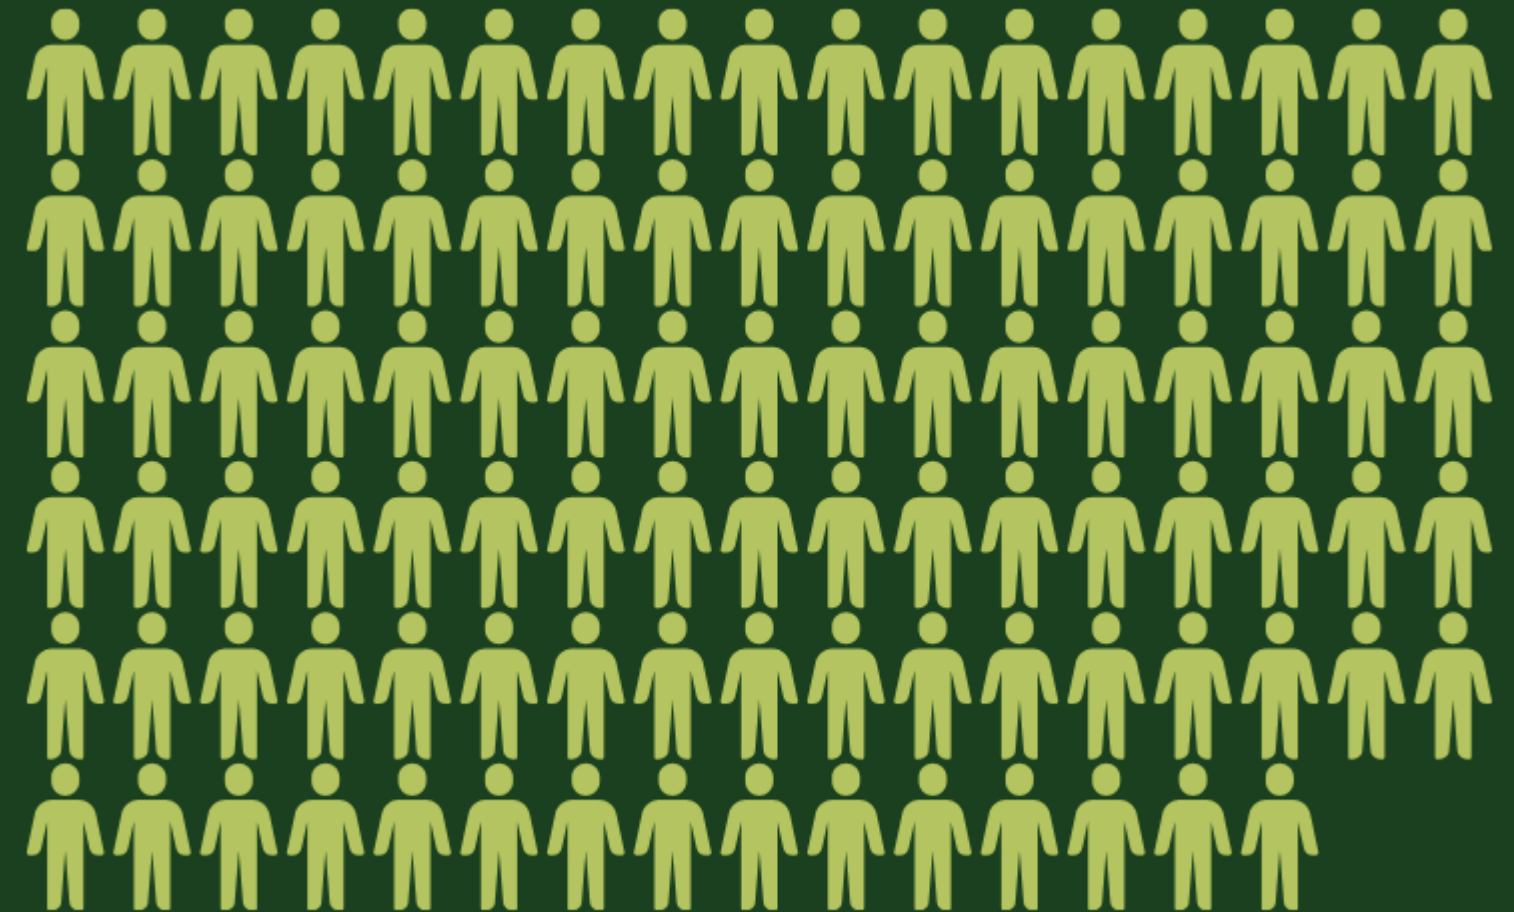

- National and International NGOs,
- CBOs,
- Other institutions of good standing, working in the health space with a special focus on MNCH, FP and PHC in Kenya.

Membership to the PHC Coalition will be open, and rolling admission is accepted.

Coalition Code of Conduct:

Members will be required to sign the groups' membership registration form and a code of conduct.

A coalition for Health

Thank You!
